K. OF P.: Organization Of New Lodge Under Way

A movement to organize a new Knights of Pythias Lodge in Redwood City was announced today along with the disclosure that Oscar E. Hardie, 1177 Valota Rd., had been appointed as special deputy grand chancellor by the Grand Lodge Knights of Pythias of California.

Lodge headquarters in San Francisco said Hardie was appointed to organize the lodge here. A bulletin stated the lodge was organized in Redwood City in 1931, but because of the depression had to surrender its charter in 1936.

Hardie says the new movement is prompted by many who have expressed their desire to get a Pythias charter here again.

The new lodge will be in Convention Dist. 21, now comprising Burlingame, Palo Alto and San Jose. Dep. Dist. Grand Chancellor John E. Allen of Burlingame and Ritualistic Inspr. Clarence Jenkins, also of Burlingame, are assisting Hardie in the organizing movement.

Hardie says that anyone interested may confer with him at his home.

The following were original petitioners for El Camino Lodge 367, instituted here on Mar. 7, 1931: Floyd Allen, Dwight E. Beard, Jesse N. Bethel, Ernest L. Bens, Edward I. Booth, Edward Christensen, Martin P. Christensen, William I. Clark, George C. Condos, John E. Cowgill, John W. Dean, Samuel E. Dennis, Manuel J. Frago, George C. Gallaher, Ernest Hecht, Ralph D. Howe, Ellsworth H. James, James J. Jorris, Alfred C. Leroy, Arthur M. Martin, Sidney H. Mason, Neylan J. Miller, Francis E. Moller, Frank Morton, William H. McCombs, Willis O'Connor, Wellington E. Orton, Charles S. Padgett, Douglas F. Praetzel, Paul H. Reimer, Edward H. Sampson, Kurt W. Schmidt, Elmer M. Sears, Milton Sears, Theron J. Seitz, George L. Solari, George A. Spencer, Stearns H. Stone, Thomas L. Timmons, Alexander Woloff, Charles H. Ward, John E. Whitmore, Martin H. Zimmerman.

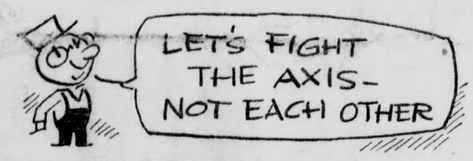
Sagehorn Wins Horseshoe Title

By virtue of what onlookers called a "Nebraska twist," A. H. (Al) Sagehorn, county treasurer and San Carlos mayor, today was acclaimed champion horseshoe pitcher of the Redwood City Kiwanis Club. Sagehorn defeated all opposition at the club's barbecue at the Lloyd A. Johnson estate in Woodside Saturday.

In other sports competitions, Walter E. Kellogg Jr. was named tennis champion and Clarence Eltringham pool titlist.

Sixty members of the club attended the barbecue.

J-M Smokestack By Jim Asbestos



LITTLE PEOPLE WIN BIG WARS

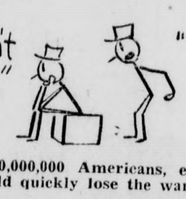
Of course we'd rather punch a Nazi or a Jap than to punch a time-clock.

That's the trouble with this war—it's all so far away.

We work on some little part of a war product, and that's the last we see of it.

It takes real patriotism to imagine the journey of our product to the fighting front——and its effect on the outcome of the war.

In other words it takes patriotism to be a big little fellow in a big war—to be just one member of a team of 130,000,000.



But 130,000,000 Americans, each thinking, "I don't count," could quickly lose the war.

THEY'RE FRONTING FOR US ARE WE BACKING FOR THEM?

Over 3,600 Johns-Manville employees have joined the armed forces.

WE DELIVER THE GOODS

A former J-M employee, Clifford Cunningham, S. F. 2-C, Naval Construction Battalion, writes:

"On every islana of the Southwest Pacific that we have been I haje noticed large quantities of J-M products."

During a period of 12 months, J-M received 24,000 questionnaires to fill out—about 96 a day. It cost the company about $195,500 to answer them in 1942.

A LOT OF THINKING AND HELPING

It will take a lot of people instead of a few highbrow planners," to work out America's post-war prosperity, according to Lewis H. Brown, president of Johns-Manville. In a recent talk he said:

"The successful solution of our post-war problems will not come from one big plan. We have seen enough during this war, I hope, of the results of individual big plans. We need only to look to Germany, and Italy and Japan. The real solution will come from thousands of small plans—some by Johns-Manville and some by the hundreds of thousands of other industrial organizations and millions of individuals in America. If each of these plans is encouraged and fostered by government, then the might of the greatest industrial machine in world history will carry us on to actual accomplishment of the 'five Freedoms'—you will notice I have added another as far as the United States is concerned—Free Enterprise."

-Jim Asbestos

County Tax Rate 1½ Cents Higher; Redwood City Levy Remains Unchanged

San Mateo County Board of Supervisors have adopted a basic tax rate for the fiscal year 1943-44 of $1.07, an increase of approximately a cent and a half over last year's rate.

Supervisor Thomas L. Hickey pointed out that the principal reasons for the increase were the inauguration of civil service and a smaller balance in the general fund. Salaries for June were paid out of last year's funds, making 13 months' salaries instead of the usual 12, and causing the balance to diminish. The supervisors recently decided to pay the June salaries out of that months' funds instead of waiting until July and the next fiscal year, as had been done in the past.

Last year's tax rate was $1.0554, more than 17 cents reduction from the previous year. Taxpayers this year will have to raise over $56,000 more than they did last year. Total amount to be raised by taxation this year is $1,374,647.74, compared to $1,317,901.45 last year.

A total of $2,694,716.17 was allowed in the budget this year. Last year the amount was $2,430,845.50. Unencumbered balance on June 30 was $300,662.41, compared to $327,419.82 the year previous. The estimated revenue for the year ending June 30, 1944, is $1,028,349. The total estimated available funds on June 30, 1944, are $1,329,010.41.

Added to the above figures are funds for the county free library and special road improvement. A total of $36,285.77 is to be raised by taxation for the county free library. Allowed for the fiscal year was $40,968. The tax rate is $.0434. Allowed for special road improvement was $368,627.

The rate of $.0434 for the county free library purposes is applicable to the entire county excepting the cities of San Mateo, Burlingame and Redwood City, levy to be made on a net valuation of $83,622,225, it was pointed out.

Total amount to be raised by taxation including the county free Library and special road improvement is $1,410,933.51, or a tax rate of $1.1134.

The tax rate was computed on a net valuation of $128,561,113.

Also accepted by the supervisors were school and special districts budgets. The supervisors have nothing to do with fixing these figures.

High school districts:

	Levy	Rate
Sequoia	$245,941	.5989
San Mateo	284,725	.4655
S. S. F.	87,599	.9519
Half Moon Bay	18,211	.7123
Jefferson	72,232	.6415
Pescadero	8,563	.3403

Tax rate for Redwood City for the year 1943-44 was fixed at $1.35 per $100 assessed value, the same figure as last year, in an ordinance introduced Monday night at a meeting of the city council.

The ordinance will be voted on at the next meeting.

The council also approved a budget with appropriations for $346,855, an increase of $28,578 over appropriations in last year's budget.

The $1.35 tax rate applies to the old town and annexation of 1903. Tax rate in South Redwood, Carmelita Manor, Port Area and Friend Industrial Tract are lower, but show increase over last year.

For Carmelita Manor and South Redwood the rate is $1.2830, as against $1.27 for last year. The Port Area has a new rate of $1.1616; last year's rate was $1.11. Greatest increase came in the Friend Industrial Tract — $1.1218 as compared to the previous rate of $1.06.

Appropriations for general purposes total $221,216.59. For special purposes $125,648.41 was appropriated.

City Mgr. Robert W. Mead, in presenting the budget, said the tax rate remained the same in spite of increased appropriations because of (1) amount of cash on hand June 30, 1943, (2) increase in revenues from sources other than taxes, (3) increase in assessed valuation.

Figures in the appropriations for general purposes in the final budget remain almost the same as those in the preliminary estimate presented June 1.

Departmental appropriations for the ensuing year total $221,206, as compared with expenditures during the last year of $199,637, an increase of $21,568. This increase is made necessary, Mead said, because of salary adjustments, the increase in the war bonus authorized by the council, and the enlarged program for street repair and maintenance.

The appropriation for capital expenditures in the Water Department for the ensuing year increased $6561 over last year. At this time, Mead said, it is estimated that there will be built in Redwood City approximately 125 new homes under the Title 6 program of the Federal Housing Authority. This increase in homes will necessitate the installation of service with purchase of more pipe, meters and fittings.

Auto Accident Ends Life Of Rancher

A. J. Fischer, 71, 2456 El Camino Real, Palo Alto, a partner in the California Tie Co., was killed Monday when his own automobile ran down a slope three miles from the Alpine Rd. and ran over him.

Frank Besana, a nearby rancher, found Fischer lying in a clearing about 40 feet from where he usually parked his car and the car was found about 40 feet beyond against a tree. Fischer was alive and tried to talk but Besana could not understand him as he was speaking incoherently.

Besana walked to the Dale ranch about four miles away and telephoned the Santa Clara County sheriff's office, which in turn notified the San Mateo County sheriff's office.

Directions to the scene of the accident were garbled, the sheriff's office reported, and it took Dep. Sheriff Eugene F. Cerqui an hour and a half to find the place. It took a deputy coroner four hours to find the location. He was finally located by Deputy Cerqui, who took him to the body.

There were no witnesses to the accident. Cerqui's report shows, Cerqui theorized that the brake was not set tightly and that Fischer attempted to stop the car, lost his balance and was dragged by the automobile. Cerqui said Fischer had a broken leg, probable broken arm and bruises.

Tin Drive Nets 106,800 Pounds

SAN CARLOS—A total of 106,800 pounds of tin has been sent to the detinning plant through the San Carlos salvage drive, Fred Drake, chairman, announced today.

Four members of Drake's salvage committee have put in more than 900 hours in the year and a half they have been donating their time. Heading the list is James McDonnell, who works in the salvage yard every day, and has a total of 2346 hours. Mrs. Lena Soward, Mrs. Sarah Yearing, and Mrs. Eleanor Gover, workers in the salvage store and sewing projects, each have 936 hours. Mrs. Etta Lewis has 62 hours; Mrs. Maud Lemis, 612; Mrs. Jessie Thomas, 510; Mrs. Ethel Van Dyne, 510, and Mrs. Elizabeth Dungan, 508. Drake has 2500 hours to his credit.

NSGW To Hold War Bond Sales

Wayne R. Millington of Redwood City, grand president of the Native Sons of the Golden West announced that Sept. 9 will be "Admission Stamp and Bond Day" to be observed by all subordinate parlors of the order throughout California, by the sale of war stamps and bonds.

This is the manner in which the order, said Millington, will celebrate California's anniversary of admission to statehood, and in all former years for more than half a century the outstanding day of celebration in the order's activities.

More than 25,000 officers and members will be enlisted to establish a new record in the order's bond buying campaigns, Millington declared. He said that committees and subcommittees were being organized and literature and campaign material given to all the parlors.

Walter Filer Estate Valued at $301,648

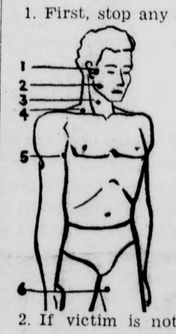
James A. Lee today had appraised the estate of Walter G. Filer, 70, San Francisco mining and civil engineer who died Apr. 3, at $301,648.08, according to papers on file in the San Mateo County clerk's office today.

The estate consisted of community property owned by Filer and his wife, Esther F. Filer. Most of the estate consists of securities and real estate. Cash amounts to $8249. He and his wife made their home at the Burlingame Country Club.

Aid to Injured

(Until First Aid or Medical Attention Is Secured)

1. First, stop any bleeding. Pressure points to control arterial bleeding (when blood flows in spurts) are located as follows:



1. In front of opening of ear.
2. On side of lower jaw in front of angle of jawbone.
3. On neck beside windpipe.
4. At side of neck just behind collar bone.
5. On inner side of arm just below armpit.
6. In middle of groin.

2. If victim is not breathing, start by artificial respiration.
3. Take charge; be firm but gentle; keep yourself calm.
4. Do not be in a hurry to move patient.
5. Splint any fractures before moving.
6. Keep patient lying down; keep him warm.
7. Give no alcoholic drinks; do not give an unconscious person anything to drink.
8. Keep crowds away.
9. In case of poisoning, administer an emetic (make the patient vomit).
10. Notify your air raid warden of injury.

Swedish Ship Leaves R.C. Port

The Parra Koola, Swedish motorship which sailed from Redwood City Harbor Wednesday is one of several foreign ships which have docked at the port recently. A. A. Moran, port manager, said.

The Parra Koola is a combination freight-passenger ship of about 10,000 tons, Moran said, capable of doing 17 knots loaded.

The docking of foreign ships here is one more indication of the importance of the port, Moran said. He pointed out that in a recent annual of the Daily Commercial News, a San Francisco shipping publication, Redwood City was listed along with San Francisco and Oakland as one of the main ports of the Bay Area. "It means something," Moran said, "when you realize the person writing the article is one of our competitors.

County Department Extinguishes Fire

San Mateo County Fire Department extinguished a small grass blaze near the intersection of Nottingham and Marlborough Sts. in Dumbarton Acres Tuesday.

Firemen said this is the fifth blaze in this district in the last few weeks. They said they suspected children of setting the fire. No damage was done.

Exchange Barbecue Attracts 45 Persons

Forty-five members and guests attended the Redwood City Exchange Club barbecue at a picnic park west of Stanford Saturday night. H. E. Holmquist was in charge of the barbecue and James C. Dodge arranged the entertainment, which included games and dancing.

Fire Destroys Livestock

Fifty rabbits, 25 pigeons and four chickens burned to death in a fire which destroyed a chicken house and rabbit hutches owned by Lawrence Robello on Fairway Dr. near Arbor Ave. in Belmont Saturday, it was reported by the Belmont Fire Dept.

Approximately 100 chickens were saved from the blaze. The pigeons were released but all flew back to their roosts and were burned to death.

The fire was discovered by boys passing by. Firemen said they had no idea how the fire started.

Important Notice!

Parcel Post Christmas Gifts

for Servicemen and Servicewomen Overseas MUST Be Mailed During These Fixed Periods

U. S. ARMY
Sept. 15 to Oct. 15 . . .

U. S. NAVY
Sept. 15 to Nov. 1 . . .

The early mailing dates are necessary so that gifts can be transported at times when shipping space is available. Arms, ammunition and supplies needed for the fighting men must, of course, have precedence over gifts in allotment of shipping space.

Postal officials pointed out that the arrangement governing gifts for army personnel is different from that which prevailed last year. Under War Department regulations now prevailing, unsolicited Christmas gifts sent by parcel post to army personnel overseas MUST be mailed during the period fixed. Packages must be marked "Christmas Parcel."

Serviceman's Request Is Necessary to Mail Before Sept. 15 and After Oct. 15

This regulation was not in effect year ago. In essence, the difference is that early mailing to service men last year was on a voluntary basis, stimulated only by the desire of the mailer to be sure that his gift to an overseas fighter reached the addressee before Christmas. Under present regulations, however, these parcel post packages will not be accepted at post offices after Oct. 15 deadline, unless accompanied by a written request from the service man overseas. Christmas cards also should be mailed during the same period as parcels.

Last year, in spite of strenuous efforts to persuade the public to mail early, some Christmas gifts reached members of the armed forces overseas after Christmas.

Package Weight and Size Limitations

Christmas parcels for the men overseas must not exceed the present limitations of 5 pounds in weight or 15 inches in length or 36 inches in length and girth combined. The War and Navy Departments have pointed out that members of the armed forces are amply provided with food and clothing and the public is urged not to include such matter in gift parcels. Perishable goods are barred.

Not more than one Christmas parcel may be accepted for mailing by parcel post in any one week when sent by or on behalf of the same person or concern to or for the same addressee. Parcels must be strongly and carefully boxed, wrapped and tied, and plainly and fully addressed.

68 Die from Tuberculosis In S.M. County During 1942

There were 68 deaths from tuberculosis in San Mateo County during 1942, it was revealed today by Dr. Charles C. Gans, county health and welfare director, whose office has just completed compilation of the figures.

Fifty-two of the deaths were males, 16 females. Dr. Gans disclosed that is the usual trend in this county. In the four-year period from 1939 to 1942, 184 males died from the disease and 69 females.

In 1939 there were 46 male deathes, 19 females; 1940, 44 males, 13 females; 1941, 42 males, 21 females.

Twenty-nine of the deaths in 1942 were county residents, 39 were non-residents.

Of the deaths last year, 55 were of the white race, 12 yellow and one black.

Places where tuberculosis occurred were California Sanatorium 15, Canyon Sanatorium 16, Community Hospital 6, Veteran's Facility 2, Mills Memorial Hospital 1, at home 8 and at Hassler Health Home (San Francisco County's Tuberculosis Facility) 20.

The ages between 51 and 55 were the most crucial for males (13 deaths) and between 26 and 30 for women (5 deaths).

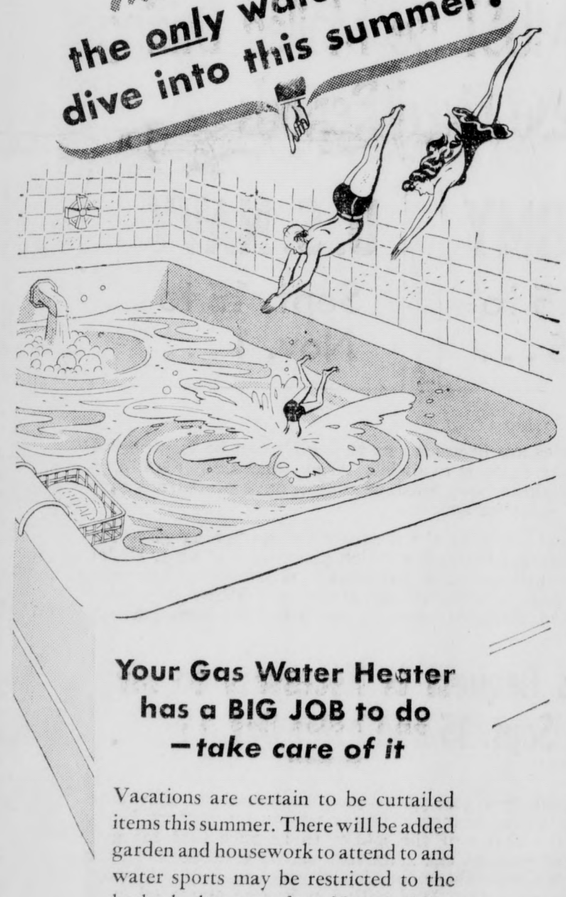
Dr. Gans also reported today that for the week ending Aug. 7 there were six cases of measles in the county, two chicken pox, one poliomyelitis, two syphilis, two mumps, one German measles and one undulant fever.

The undulant fever case was in Belmont. Three of the measles cases were in Burlingame, two in Hillsborough and one in San Bruno. Menlo Park and San Bruno each had a chicken pox case. The polio case was in Menlo Park (the case already had been reported in the Tribune). There was a syphilis case in Redwood City and one in San Mateo. San Mateo had two cases of mumps and South San Francisco had one case of German measles.

Aluminum pistons, for replacement purposes in automobile motors, are six times as popular as cast iron ones according to census figures. Over 6,900,000 aluminum pistons are sold annually, latest figures show, compared to 1,653,000 cast iron pistons.

Smallest country on the American continents is El Salvador, a land of 13,000 square miles.

The brink of Niagara Falls is receding at a rate of about 2½ feet each year.



Your Gas Water Heater has a BIG JOB to do —take care of it

Vacations are certain to be curtailed items this summer. There will be added garden and housework to attend to and water sports may be restricted to the bathtub, shower and washing machine.

Which raises this question: "When was the last time you gave your faithful, dependable, hard-working water heater some personal attention and care?"

Summer is the time to attend to your water heater because summer is the time when your household demands its greatest use of hot water. And here is what to do: 1. Drain your water heater tank of sediment. 2. Brush the burner clean and clear of dust and dirt. 3. Touch up exposed flue and connections with paint or oil to prevent corrosion. 4. If special trouble develops call in a service man for a check-up.

Gas and Electricity are Vital in War Production even though they are not rationed and are cheap to use—do not waste them!

NHA Gives Priorities For Homes

National Housing Administration disclosed Wednesday that priorities have been granted for approximately 125 war housing units in Redwood City. Construction is expected to start immediately and to be rushed to completion at the earliest possible date. One-third of the homes may be sold during or 15 days after construction, the balance to be rented. Renters will have an option to purchase which they may exercise 60 days after occupancy.

NHA emphasized that the houses are to be occupied only by "indispensable in-migrant civilian war workers," certified by the county war housing authority.

Recognition of Redwood City's critical housing situation came with granting of priorities to five contractors. Other applications are pending.

The federal agency explained that the new war housing units, known as Title 6 houses because of the method of financing by private contractors with Federal Housing Authority insurance, will be detached two- and three-bedroom structures, limited in size to 800 and 1000 square feet respectively.

The homes will approximate those of similar cost constructed two or three years ago, the NHA Board restrictions preclude construction of garages, require that plumbing fixtures be centralized and limit the number of electrical outlets. The homes will be finished in rustic rather than stucco. Such sacrifices, NHA pointed out, are necessary to assist the war program.

City Bldg. Inspector L. M. Duncan said no formal building applications have been filed. From National Motor Bearing Co. it was learned that one realty firm already was contracting eligible war workers in an effort to sell the new homes.

Duncan said he understood that new housing units would be located in several areas, including Adams St. one block west of El Camino Real; Lower Broadway; the McGarvey district on Center St. and in the vicinity of the Jay-Dee Leather Products Co. on Shasta St.

NHA said the homes to be erected in Redwood City are part of a 650-unit allocation made to serve South San Francisco war plants, plus one war plant certified in Redwood City.

War workers already housed may not be considered as prospective tenants or buyers of the new units, but such workers would become eligible if evicted from their present homes, an NHA officer said.

At the city council meeting Monday an increase in water department capital expenditures was allowed to finance pipe, meters and fittings for the new homes.

Gardener Rescues 12-Year-Old

Twelve-year-old Tony Armada of 1025 Grand St., Redwood City, today owed his life to the ingenuity of Mike Sanchez, 1406 Redwood Ave., Redwood City, a gardener, and the work of the Woodside Fire Dept.

Sanchez and Armada were working on the David Bohannon estate in Woodside Hills Saturday afternoon and when they completed their work Sanchez sent the boy for his hat and coat. When young Armada failed to return in six or eight minutes, Sanchez went to look for him and found him in the bottom of a swimming pool, unconscious.

Sanchez, who was unable to swim, took a long-handled broom and swept the boy to a depth to which he could wade. He then called the sheriff's office at Redwood City, which in turn called the Woodside Fire Dept. Seven firemen worked on the boy with an inhalator for approximately an hour before he was revived. He was taken to Mills Memorial Hospital in San Mateo where it was reported th boy is expected to suffer no ill effects from the episode.

It was believed young Armada slipped and fell into the pool, Woodside firemen said.

Armada lives with his mother, Mrs. Mary Rameriz, and stepfather, John Rameriz.

Wyoming in 1941 received the largest amount, $882,295.97, under the conservation program of the Department of Interior, for using public lands for lumbering and grazing, for mineral and potash production.

Sugar and cocoa-bean products normally constitute more than 50 per cent of the raw materials used by the confectionary industry, according to the Department of Commerce.

Fall Session Will Start On Sept. 13

Sequoia High School's first summer session which ended Friday proved a success, Supt. A. C. Argo declared today. The session lasted eight weeks and had a total enrollment of 111. Approximately three-fourths of the students who registered finished the work they undertook, he said.

English, mathematics and commercial subjects were taught by four teachers—Principal Carl Underwood, who taught commercial subjects; Hugo Rustad, mathematics; Edwin Spence, English and mathematics, and Miss Louise Watkins, English.

Some of the students took makeup work, others took courses such as typing that they couldn't work into their regular programs, while others accelerated their studies.

NO FEES CHARGED

There were 15 students from out of the Redwood City district. No fees were charged for courses, as the state paid for the special classes.

"The majority of the students were earnest in their work," Argo said.

One boy made up enough work to receive his graduation diploma before entering the armed services.

Argo announced the regular fall session at Sequoia will open Monday, Sept. 13. Preliminary enrollment will be held in the counseling office Sept. 9 and 10 for anyone who has moved to this district during the Summer or anyone who desires to change his program.

Only two major changes are expected for the opening of the fall term, Argo said. The gardening building will be used for fundamental shop for freshmen boys, and the cafeteria will have a modified service so that more students may be accommodated. The cafeteria was crowded last year, he stated, and the service area has been reorganized during the Summer.

NEW TEACHER

Addition of another new teacher to the Sequoia faculty was announced today by Argo. Dr. Lavonne Hanna, who recently took her degree from Stanford University and has been acting assistant professor of education at Stanford, will teach soscial problems and freshman social living.

Dr. Hanna last week was a speaker at a two-day conference at Stanford covering work on social education, social administration, mathematics, science and guidance. Argo was chairman of one of the social studies sessions.

Other members of the Sequoia faculty attending the conference were Charles Brown, Mrs. Eyla Wooldridge, Miss Juliane Wolters, Lawrence Hatch, Elmer Mortensen, Mrs. Petra Cooper, Miss Anna Neff, Miss Mildred Proctor and Mrs. Ulah Hearon.

TAXES: County Supervisors Approve School Levies

Among tax rates approved Tuesday by the San Mateo County Board of Supervisors for elementary school districts were:

	Levy	Rate
Burlingame	$106,538	.6913

VFW Stickers Now Available

Frank De Patta, commander of the Redwood City post, Veterans of Foreign Wars, announced that windshield stickers ordered by the post have arrived, and are now available to the public. The stickers say, "Demand Congress send all Japs back to Japan," and can be obtained at De Patta's office at 1798 Broadway.

City Council Investigates Bus Lines

Obviously impatient over the delay of the Redwood City Bus Line in submitting a financial report and paying on its obligations to the city, the city council this week asked Paul A. McCarthy, city attorney to determine if R. F. Martin, owner of the line, is subject to payment of a business license.

Martin previously had reported he was unable to pay installments on $1800 advanced him by the city because of low profits and outlay for new equipment.

The bus line is operating without a franchise pending a decision from the State Railroad Commission to determine whether the line should operate under jurisdiction of the city or the commission. McCarthy said the decision was still pending even though a case presented later, regarding the Middlefield Rd. Bus Line, also owned by Martin, had been settled. The council asked McCarthy to find out if there was any reason for the delay.

Harry Weiner asked permission to use his building at Arguello and D. Sts., against which the council has initiated nuisance abatement proceedings, as a tool shed. Weiner said he was unable to get the building moved.

Councilman Chester Armstrong moved that Weiner be allowed 30 days; if the building were not moved, the city would move it and bill him for the cost. Motion passed.

Stuart Copps of Emerald Lake, asked the council if the "Jefferson Monument," a pile of scrap on Jefferson Ave. outside the city limits, could not be moved. Copps said it was an eyesore to all who come into town from Emerald Lake. The matter was referred to City Mgr. Robert W. Mead with the suggestion that city and county do the job together.

McCarthy was asked by the council to answer a letter written by six girls under 18 asking for explanations on details of the curfew ordinance.

Action on the Red Feather annexation was postponed pending second publication of the ordinance.

E. W. (Ned) Butler reported the merchants in favor of the ordinance regulating sale of unsafe electrical appliances. The council asked McCarthy to present the ordinance at the next meeting.

A recommendation of City Manager Mead that the Bear Flag be flown on one side of the entrance of the city hall with an American Flag of the same size on the other was accepted.

Resolutions offered by Mead for plans, improvements and specifications of Brewster St. and Redwood Creek were adopted.

Councilmen Art Britschgi and Armstrong were appointed representatives of the council to attend a meeting to help plan the Community Chest-sponsored servicemen's party.

PUBLIC NOTICE

Crist & Beene, Atty.
NOTICE OF TRUSTEE'S SALE

NOTICE IS HEREBY GIVEN That default has been made in the payment of principal and interest on the promissory note secured by that certain deed of trust executed by PERCY GRAY, as trustor, to L. H. BLISS, as trustee, and FRANK LEE CRIST, as beneficiary, dated May 4, 1942, and recorded in the office of the County Recorder of the County of San Mateo, State of California, on the 5th day of May, 1942, in Book 1008 of Official Records, at page 499, San Mateo County Records, and that application in writing has been made to the undersigned trustee under said deed of trust, by said beneficiary, the owner and holder of said note and deed of trust, that the undersigned sell the premises by said deed of trust conveyed and hereinafter described, as in said deed of trust provided;

NOW, THEREFORE, the undersigned trustee will, on the 9th day of September, 1943, at the hour of 10:00 o'clock a.m. of said day, at the front door of the courthouse, in the City of Redwood City, County of San Mateo, State of California, in pursuance of the provisions of said deed of trust, sell at public auction to the highest bidder for cash, in lawful money of the United States of America, the land and premises situated in the County of San Mateo, State of California, described as follows, to-wit:

The southerly 17 feet, front and rear measurements, of Lot 5 and the northerly 29.23 feet front and rear measurements of Lot 4, Block 9, Map of Co-operative Land & Trust Company Track Subdivision No. 1 of North Palo Alto, San Mateo Co. Cal., filed in the office of the County Recorder of San Mateo County July 1, 1907, in Book 5 of Maps at page 13.

Dated: August 5th, 1943.

L. H. BLISS, Trustee.

What To Do in Air Raid

1. If away from home, seek nearest shelter. Get off the street. If caught in open, lie on stomach.
2. If driving, park your car at the curb. Turn off all lights.
3. If at home, send your family to the blackout room.
4. Turn off gas stove burners and water faucets, but leave pilot lights, water heaters and furnaces alone.
5. Check up on blackout arrangements. Don't let a crack of light show outside.
6. See that everyone's eyeglasses and dentures are in the blackout room. See that everyone has enough warm garments.
7. Keep out of line of windows, for glass fragments cause casualties.
8. If bombs fall nearby, get under a heavy table or overturned sofa.
9. Don't use the telephone.
10. Don't rush outside when the "all clear" signal sounds. The raiders may return.
11. After an air raid in your locality, sterilize water by one of the following methods: (a) Boil five minutes. (b) Add to each gallon of water four drops of chlorox or similar disinfectant, mix well and let stand 30 minutes. (c) Add eight drops tincture of iodine to a gallon of water, mix well, and let stand 30 minutes. (NOTE: Continue to do this until health authorities assure you the water supply is satisfactory.)

WAR CHEST: Bond Prize For Best Campaign Slogan

A war bond for a good snappy campaign slogan!

That's the offer the San Mateo County War Chest leaders made today to Peninsulans from one end of the county to the other.

In other words, if you can think of a peppy slogan not over 10 words long for the war chest drive which starts Oct. 18, and it proves to be a winner, you will have earned the very best security in the world—a $25 war bond.

War chest leaders announced today that the slogan contest opens Sept. 1, and that all entries must not be postmarked later than Sept. 15.

Contest entry blanks will appear shortly in the Tribune or can be had for the asking at the San Mateo County War Chest headquarters, 1211 Burlingame Ave., Burlingame, as soon as the blanks are printed.

Meanwhile a committee of prominent citizens is being selected by the war chest organization to judge the slogan entries. Anyone may enter the contest with the exception, of course, of persons affiliated with the war chest drive.

The slogan will be used in the war chest drive to raise funds for war relief agencies for a two week period beginning Oct. 18.

E. H. Cosgriff, county chairman of the war chest drive and well-known Burlingame attorney, reports that residents of the entire county have pledged support to the drive for funds which will be collected for combined worthy causes.

When Is Chicken Not Chicken?

When is a chicken not a chicken?

Emil Stein, city health officer, answers by saying, "Before it is a fryer."

The complicated question came up this week at a city council meeting when Louis Nicholson, 50 Finger Ave., asked permission to keep more than the 20 chickens the city will allow on premises in a first residential district.

Nicholson has about 350 so-called "chickens," but claimed that many of them were young and shouldn't count as such. The council asked Stein, who admitted that chickens are not counted as such until they reach the fryer stage.

Even by this computation, Nicholson still had 28 chickens too many and the council denied his permit. City officials speculated on the big chicken "feed" that Nicholson must stage on the day his fowls actually become chickens.

On the question of rabbits the health department is not so sure. A doe with 12 young is still just one rabbit. When the magic change occurs is not known. The question is not so pressing as rabbits are not prohibited.

Dogs for Defense Says Adage Wrong

The old adage "You can't teach an old dog new tricks" has proven erroneous at training quarters for Dogs for Defense, B. B. Berman, Redwood City chairman for the organization, says.

Berman says old dogs often turn out to be as adaptable as the young ones. Mongrels, too, often learn better than pure bred dogs, he said. Dogs that are half collie and half German shepherd are markedly successful.

The training center still needs more dogs, Berman reports. He asks dog owners who would like to enroll their dogs for service to see him at 2608 Broadway.

War Council Committee Plans CD Week Events

A general outline of events for Civilian Defense Week, which begins Sept. 20, was worked out by the public relations committee of the Redwood City War Council at a meeting this week.

Louis Dematteis, chairman, said plans to date include a talk by a high ranking army official on civilian defense, a drive to distribute civilian defense pamphlets recently published here, demonstration of civilian defense techniques and a parade.

Stanford Offers War Course

STANFORD UNIVERSITY — Training business and professional men for executive positions in war industries, the Stanford University War Training Office, through the Graduate School of Business at Stanford, opens its third free course in "Management Practices in War Industries" Oct. 11.

The intensive full time course will run for 10 weeks on the Stanford campus. It is given as part of the university's engineering, science and management war training program.

The course is designed both to train men now employed in executive positions in nonessential industries for war industries, and to train potential executives now employed in war work. The fields of industrial management, personnel work, and cost accountare especially emphasized.

The classes are under the direct supervision of Dean J. Hugh Jackson of the Graduate School of Business, who will consult with trainees about their individual problems and programs. Five of the ranking professors of the school will teach them.

Applicants must be high school graduates with at least five years of business experience, or have equivalent training. Application forms may be secured from the Graduate School of Business at Stanford.

Trusties Back in Jail

Fate of two trusties who escaped from the San Mateo County jail at Redwood City Nov. 14, 1941, by climbing over the back wall while hanging out laundry was learned by Sheriff James J. McGrath with word that both are behind prison bars. bars.

Fred Threlkeld, 22, who had served four months of a six month's sentence on a fictitious check charge, was arrested at San Leandro and turned over to Council Bluff, Ia., authorities on a check charge. He was sentenced to the state penitentiary at Fort Madison, Ia., where he is now serving an 11-year term.

George Mason, 26, who escaped with Threlkeld, was arrested in North Carolina on an automobile theft charge and sentenced to four years in the federal penitentiary at Chilicothe, O., for violation of the Dyer Act. He was in jail here on a car theft charge and had completed six months of a nine month's sentence.

Holds will be placed on both for their escape here, the sheriff's office said.

MONTGOMERY WARD

Sure it's fun! Slipping into that pretty new dress!
Admiring the neat crease in the new pants!
Walking proudly in shiny new shoes! Johnny
and Mary go off to school with confidence—when

MENLO PARK: City Council Gives Approval To Fremont St. Improvement Project

MENLO PARK — Members of the Menlo Park City Council this week gave the final go-ahead signal to the Fremont St. improvement project over the protests of Edward Farley and Mrs. Margaret Kopanhegan, residents of the area affected.

Farley argued with various members of the council for almost an hour before they passed the resolutions which put their official seal of approval on the project.

Protesting as an "American citizen," Farley declared, "I don't mind putting in streets, but I'm opposed to curbs and gutters."

Mrs. Kopanhegan protested the curbs and gutters and said that she had signed the petition with the understanding that only the street construction was included. At her request her name was stricken off the petition.

Mayor Charles Oram explained that more than half of the people affected had requested the improvements and that when the majority of the people want something, "that is what the council approves."

When the vote was taken Councilmen William Cutter, Charles Burgess and Oram all voted "yes." Councilmen Edward McCurrin Jr. and Paul H. Bryant were absent.

This is the culmination of a move to improve Fremont St. which began some 10 years ago. Previously petitions had gone as far as the council and had been stopped at protest hearings. According to previous statements made by City Engineer Edward Smith, who was not present at this week's meeting, work will begin about the first of next month.

Improvements which will be made on Fremont St., Florence Ln., and a portion of Middle Ave., will include grading and preparation of a sub-grade, construction of a cement concrete curb, gutters and sidewalks, three-inch water-bound rock macadam base pavement, two-inch asphaltic concrete surface pavement and vitrified clay pipe sanitary sewer laterals. Total budgeted cost is $22,961.61, including actual cost of improvements and incidentals. This will be borne by property owners affected and will be paid over a period of 10 years.

The council received a second petition this week. E. M. Rankin submitted one signed by practically all of the property owners on Cherry and Pine Sts. requesting that an asphalt seal coat be put on the street. Councilman Cutter informed Mr. Rankin that, owing to the cut in the street budget, he feared this was almost an impossibility. The petition will be considered at the next regular meeting of the council, Aug. 24.

San Francisco Man Hurt in Accident

Orazio Luchetti, 55, of San Francisco, suffered minor injuries when the automobile in which he was riding collided with a car driven by Pauline R. Baker, Rt. 2, Box 2948, at the Myrtle and Katherine St. intersection Sunday afternoon.

Police said Luchetti was a passenger of Gisseppe Massolo, Mountain View. He was taken to the Community Hospital in San Mateo in a Redwood City ambulance, but was discharged a short time later.

Cryptic Letter Balks Supervisors

Mrs. Ella Hermosillo, 531 Lincoln Ave., has the Santa Clara County Board of Supervisors in a quandary today, according to a report received here from the Associated Press. The board does not know what to do with a money order received from Mrs. Hermosillo.

A letter accompanying the money order said: "I owe two different parties. I do not know their names. So, therefore, I cannot locate them. I am a follower of Father Divine. Please inform his of this donation as it it through his spirit I am paying my old bills. Thank you Father."

When asked about the matter, Mrs. Hermosillo explained that under Father Divine's rules if a creditor cannot be located, one should give the money to a worthy cause. Mrs. Hermosillo said she intended the money to go to the Milpitas Poor House.

Manufacturers May Use Enemy Owned Patents

Manufacturers in this area who are searching for new products to manufacture can avail themselves of patents and patent applications which were formerly enemy owned or enemy controlled, E. W. (Ned) Butler, chamber of commerce manager, reported this morning.

A bulletin received at the Redwood City Chamber of Commerce office states that the alien property custodian of the United States has vested approximately 45,000 of these patents and applications.

There are patents in practically every field of the mechanical, electrical and chemical arts.

Manufacturers interested may contact the chamber of commerce for further particulars, Butler said.

From 1784 to 1788, a state of Franklin was established to govern citizens of what is now the state of Tennessee. The area had been ceded to the United States by North Carolina, and residents feared the national government would not make provisions for their government.

SAFEWAY Homemakers' Guide

BUY MORE BONDS

SHOP EARLY IN THE WEEK

Shop early in the week—best time is between 10 A.M. and 2 P.M. You'll still save money because Safeway's special low advertised prices are effective early in the week—Tuesday through Saturday.

Scheduled for Fall canning

There's still time to fill those cupboards with home canned foods for enjoyment next winter. Scheduled for fall canning are all those tomato products, pickles, relishes, and sauces which give winter menus a lift. The equipment you need for putting up these products is no more than a preserving kettle or any other large kettle, and a few gadgets that you use every day. So get ready for fall canning.

CANNED WHOLE TOMATOES

Select firm, ripe, medium-sized tomatoes. Scald in boiling water for 1 minute. Plunge in cold water 1 minute. Peel, core and pack in hot sterilized fruit jars. Fill jars with boiling hot water or tomato juice to within ½ inch of top for quarts and ¼ inch for pints; seal jars. Process in water bath for 45 minutes; or in pressure cooker 15 minutes at 5 pounds pressure.

TOMATO HOT SAUCE

12 lbs. ripe tomatoes
1 lb. onions
1 tbsp. whole allspice
1 tbsp. celery seed
2 tsps. whole white pepper

Wash, core, and quarter tomatoes. Peel onions and cut in wedges. Combine tomatoes, onions and spices tied in a bag in large preserving kettle. Cook until tomatoes are soft and slightly thickened. Remove spice bag. Cool and sieve tomato mixture into large sauce pan. Cook until thickened, about 20 minutes, stirring frequently. Pour into hot sterilized fruit jars; seal at once. Makes 4 qts.

HOT DOG RELISH

3½ lbs. sweet red peppers
3 lbs. green peppers
3 lbs. onions
4 cups vinegar
½ cup sugar
1 tsp. mustard seed
1 tbsp. dry mustard
1 tbsp. celery seed
2 tbsps. salt

Wash peppers; remove seed cores. Peel onions. Put vegetables through food chopper, using coarse knife. Place in large preserving kettle; cover with boiling water and let stand 5 minutes; drain thoroughly. Add vinegar, sugar, spices, and salt; cook until vegetables are tender, about 10 minutes, stirring occasionally. Pour into hot sterilized fruit jars, filling to top; seal at once. Makes 6 pts.

WANT MORE CANNING RECIPES?

You'll find them in this week's Family Circle Magazine in Julia Lee Wright's latest canning article. Get your copy and start on that "put-up" job.

Safeway Homemakers' Bureau
JULIA LEE WRIGHT, Director

Every Jar You Put Up is a Jar to the Axis

This summer, Home Canning counts more than ever. So don't waste an ounce. Be sure the food you can is fresh. Stale or over-ripe food will not can successfully. Produce sold by Safeway is rushed direct from farms to you and is guaranteed to be farm fresh. Take advantage of the low prices now when crops are plentiful. Start canning today.

MERCHANT MARINE: San Mateo School To Celebrate Birthday, Dedicate Buildings

Announcement of a celebration to dedicate the completion of new buildings valued at $100,000 at the United States Merchant Marine Cadet Basic School at San Mateo Point and to mark the first anniversary of the academy was made today by Comdr. Ralph M. Sheaf, commanding officer of the school.

The event will be held on Aug. 23, Harbor Day, and "open house" will be at the school beginning at noon.

Feature of the program will be "Ginny" Simms, famous radio and screen star who will appear with Ted Weems and his band in a nationwide broadcast direct from the school.

Vice Adm. John W. Greenslade, commander of the Western Sea Frontier has been invited as principal speaker of the day at the open air program.

The 500 cadets at the academy will stand for formal navy review by Admiral Greenslade and Commander Sheaf.

"In addition to the review every cadet on the base has pledged to step up to the reviewing stand and purchase a United States War Bond, indicative of his faith in the country he is fighting for," Lt. Comdr. John C. Kucin, executive officer of the school announced today.

PRESERVE WIRE SCREENS

Window screens and screen doors probably will be on the householder's "precious" list for the duration. To take care of those you now have, paint with a wire screen enamel especially designed not to clog the mesh. This prevents rust. Place the screens across two carpenter's horses, so they will be at a convenient height to work on and all areas easily accessible. Apply the finish with a spreader, a neat little gadget consisting of a piece of napped fabric fitted into a flat metal holder with a convenient handle. The same enamel may be used on the frames, too.

Much of the magnesium used in airplane engines is obtained from ocean water.

Mrs. Grace Selberg Sues for Divorce

Alver Selberg, professor of dentistry who lived at 1006 Whitwell Rd., Hillsborough, today was sued for divorce in superior court at Redwood City by Grace Selberg on the grounds of extreme cruelty.

Mrs. Selberg asked for community property consisting of the Hillsborough home, an automobile, household furnishings and life insurance policies; $250 monthly alimony and $1000 attorney fees and costs. She alleged that Selberg earns in excess of $500 a month.

The Selbergs were married Mar. 28, 1931, and separated May 3 of this year. They have no children.

The cosmetic industry of the United Kingdom is now operating at about one-quarter of peacetime capacity, according to the Department of Commerce.

Let's Grow It!

By Rolly Langley

You'll have to give a lot of credit to John Brucato, chairman of the San Francisco Victory Garden Council, working in a community not too interested in gardening to begin with, in a community none too well suited either as to climate or city planning.

Brucato has shown great organization talent and the determination to overcome obstacles.

Not long ago, I was told about his plan to sell California garden snails to gourmats and epicures along the Atlantic seaboard. I've gone back to Brucato again not because I had any desire whatsoever to be his press agent, but because the fellow keeps doing things.

The San Francisco Chamber of Commerce sent out some figures compiled by Brucato last week showing the total number of victory gardens in San Francisco, is now close to 70,000. Of these, he estimates that 10,000 will not be planting fall and winter crops due to the absence of winter sunshine and other poor growing conditions. Let's take a quote from that release:

"Surveys conducted in various parts of the city show that the average value of the back yard San Francisco garden is about $20, according to present day retail vegetable prices. These figures are conservative and based on plot size ranging from a minimum of 100 square feet to maximum of 1000 square feet under the San Francisco conditions. Some gardens showed as much as $200 worth of crops produced during the past year.

"Inasmuch as the figures compiled were based upon completion of the first fall crop (we grow three crops in San Francisco), the total value of agricultural crops raised in San Francisco victory gardens (60,000 times $20) gives San Francisco a victory garden crop value of $1,200,000. . . . With planting for fall and winter maturity now under way, these crops will greatly increase crop value in the county as the harvest will occur when vegetables will be scarce and and at the highest value."

Whether Brucato is accurate in these estimates or not, we must give him credit for dreaming up some final figures for us. Probably those figures could be shot full of holes, but why worry about that.

On a percapita basis, Oakland, San Jose, Sacramento, Palo Alto, San Mateo, any number of Central California cities could probably outshine San Francisco, provided the figures were known.

Last Thursday morning Brucato's activities led to more Associated Press stories. He arranged the "Rancher's Free Market" in San Francisco where pears were sold at 4½ cents per pound in lug box lots. Gravenstein apples sold at 3 cents per pounds and in a little less than two hours, urbanites were able to buy 15 tons of fruit for home canning.

The market with such an auspicious start, naturally, continues.

Growers who brought their pears into the market received $90 per ton. Canneries are paying only $65 a ton for No. 1 fruit and did not buy all that was offered. And so the free market serves a double purpose—saving food from waste and giving city folks a chance to can their own without paying the middleman markup. That's about the only way any quantity of fruit can be home preserved.

I have asked a number of growers if they would be interested in free market prices in the various cities. They said that they didn't have the time to spare away from their orchards. But the way Brucato worked it for a grower to get $25 a ton above the wholesale market and sell a truckload in an hour or so, the deal was successful.

What next, Brucato?

Brazil's sales to Japan dropped 45 per cent in 1941, and those to Germany 25.5 per cent.

Georgia is the largest state in the Union east of the Mississippi.

COME TO EVERYBODY'S

for Continued Buy-ability!

We Have a New Shipment of Children's School Oxfords, All Leather Soles, in White, Brown, Black, Military Styles, also Heavy Work Shoes for Boys and Men. Fine Line of Ladies' Shoes.
